Note:

Please note that although a room is listed as 'wheelchair accessible', a Personal Emergency Evacuation Plan is required for all staff and students unable to self-evacuate in an emergency. Provision for visitors who are unable to self-evacuate is the responsibility of the organiser of the event/meeting. While the School is responsible for preparing this, staff and students requiring assistance should confirm the evacuation arrangements.
The David Hume Lecture Theatres are located adjacent to the main David Hume Tower and can be accessed from David Hume Tower or directly via the external circulation space off George Square. (See Plans)

For those with mobility difficulties or are wheelchair users, the best way to access the theatres is via the ramp access located at Lecture Theatre C (LT C); this then links with the entrances to Lecture Theatres B (LT B) and A (LT A).

Wheelchair accessibility recommendation: Yes

Lecture Theatre A

The larger of the three theatres; and accessed via the two link doors of the concourse from LTC and LTB

- Wheelchair access can be made via a wheelchair stairlift located on the left hand side access to the theatre.
- Wheelchair locations within the theatre, as might be expected, is restricted to the lower level and centrally within the student seating area.

The purchase of portable writing tablets for students in wheelchairs may shortly be available where there are no suitable desks in lecture theatres.

- The lighting within the theatre is fairly good.
- The theatre has a hearing induction loop.
- The theatre has wireless connectivity.

Wheelchair accessibility recommendation: Yes
The of the two smaller theatres; and accessed via the link doors of the concourse from LTC.

- Wheelchair access can be made via a wheelchair stairlift located on the left hand side access to the theatre.

- Wheelchair locations within the theatre, as might be expected, is restricted to the lower level. A small section of the tiered seating layout (center, second row, RH side, could accommodate a person with mobility issue but not a wheelchair user.

The purchase of portable writing tablets for students in wheelchairs may shortly be available where there are no suitable desks in lecture theatres.

- The lighting within the theatre is fairly good.

- The theatre has a hearing induction loop.

- The theatre has wireless connectivity.

Wheelchair accessibility recommendation: Yes
Lecture Theatre C

One of the two smaller theatres; and accessed via the ramped concourse entrance.

- Wheelchair access can be made via a wheelchair stairlift located on the left hand side access to the theatre.

- Wheelchair locations within the theatre, as might be expected, is restricted to the lower level. A small section of the tiered seating layout (center, second row, RH side), could accommodate a person with mobility issue but not a wheelchair user.

The purchase of portable writing tablets for students in wheelchairs may shortly be available where there are no suitable desks in lecture theatres.

- The lighting within the theatre is fairly good.

- The theatre has a hearing induction loop.

- The theatre has wireless connectivity.
