Personal Emergency Evacuation Plan

Note:
Although a building may have suitable access, it is important that confirmation is sought that there are emergency evacuation procedures in place. Therefore, it will be necessary to contact your personal tutor/line manager or your host to enable the preparation of a Personal Emergency Evacuation Plan (PEEP). This will ensure that facilities and procedures are in place in the event of an emergency or that alternative locations are used.
While this document indicates some rooms are unsuitable for wheelchair access, this assessment is based on the desk layouts remaining unchanged. **Wheelchair access is possible and wheelchairs can be accommodated within the teaching areas if desk layouts are reconfigured.** This is of course dependant on class occupancy numbers.

The University Registry Office should have been informed of students attending classes within this building who may have disabilities, whether it be mobility, visual or hearing. If this is the case, Edinburgh University will have made suitable adjustments where reasonably practicable.

An accessible toilet is located on the ground floor, however, this is not recommended for wheelchair users due to restricted wheelchair transfer space. Standard design male and female toilets are available on the ground floor.
BOOKABLE ROOMS - Accessibility
Hudson Beare Building
