University of Edinburgh

Job Description

1. Job Details – 032

Job title: Management Accountant – Corporate
School/Support Department: Finance Department, Corporate Services
Unit (if applicable):
Line manager: Senior Management Accountant

2. Job Purpose

To contribute to (a) the provision and further development of timely corporate management information for both strategic and operational purposes, covering financial planning, budgeting, forecasting, monitoring and reporting, and (b) the provision of financial expertise to the University’s Support Groups.

3. Main Responsibilities

The Management Accounting Section provides timely corporate management information for both strategic and operational purposes. Corporate financial costing (including fEC), planning, budgeting, forecasting, monitoring and reporting, all fall within its remit, as does the provision of financial expertise to the University’s Support Groups. The main duties and responsibilities of the Management Accountant – Corporate Area are:

1. To assist with the provision and development of corporate management information including the following:
   - Preparation of the University Recurrent Budget
   - Monitoring corporate income and expenditure
   - Preparation of University monthly management accounts and quarterly forecasts, incorporating I&E Accounts, Balance Sheet and Cashflow Forecasts, in conjunction with the Financial Accounting Section.
   - Preparation of monthly financial performance indicators for the University’s Senior Management Team
   - Mid-Year return and Financial Forecasts including Income and Expenditure, Cashflow and Balance Sheet
   - Working with the Planning Section and developing a detailed understanding of the University resource allocation and income incentive schemes.

2. To prepare budgets and forecasts, and to monitor and report on Corporate income and expenditure – Recurrent Grant, Tuition Fees and Other Income, Depreciation, Loan Interest, Student Union Grants, etc.

3. To contribute to the preparation of the annual Transparency Review Return, and to develop and promote Full Economic Costing (fEC) and Pricing Strategies
4. Planning and Organising

Within parameters established by the Senior Management Accountant, the Management Accountant – Corporate Area plans and prioritises his/her own workload and liaises with team members to ensure others actions are complete and required information is provided. Successful financial management requires careful forward planning and organisation, to ensure that excellent decision-support information and analyses are quickly and readily available, and that regular reporting deadlines are achieved consistently on schedule.

5. Problem Solving

Problem solving ability of a high level is required. It is essential to be able to work effectively across section or departmental boundaries, as optimum solutions are likely to be achievable only with a clear perspective of the aspirations and objectives of colleagues across the University. It is important to have a good understanding of the construction of the University’s financial accounts and financial accounting policies. The Management Accountant – Corporate Area must exhibit tact, diplomacy, persistence and a thoroughly professional approach in order to be successful.

6. Decision Making

Decision-making is made in the context of (a) University policies on Planning, Budgeting and full economic costing (to the development of which the postholder will contribute), (b) the Finance Manual, and (c) guidance provided by the Senior Management Accountant. However, a degree of autonomy is expected in terms of day-to-day decisions, appropriate to the grade.

7. Key Contacts/Relationships

The Management Accountant - Corporate liaises with a range of colleagues of varying degrees of seniority, up to and including the Heads of Support Groups, Support Service Directors and their staff, and College Accountants.

8. Knowledge, Skills and Experience Needed for the Job

The Management Accountant – Corporate Area must match the following essential and desirable criteria:

**Educational and Professional Qualifications**

- Membership of a recognised accounting professional body (essential)

**Experience/Training**

- at least two years’ experience of operating in a large multi-departmental organisation (essential)
- a strong financial management and accounting background, (essential)
- experience of an integrated accounting package in operation in a large multi-departmental organisation (essential)
• Experience in developing strategic and operational plans (desirable)
• Experience in project costing (essential)
• Demonstrable success in staff development and training (essential)
• Excellent working knowledge of Excel (essential)

**Specific aptitude and abilities**

• A logical, focused and constructive approach (essential)
• A positive, self-reliant, open-minded and enthusiastic attitude (essential)
• The ability to work both as part of the team and under your own initiative with minimum supervision (essential)
• The ability and discipline to plan and prioritise your own work, and to ensure that staff are able to do likewise (essential)
• The ability to consistently work to extremely tight deadlines (essential)

**Interpersonal Skills**

• Excellent interpersonal skills (essential)
• Excellent planning and organisational skills (essential)
• Excellent oral communication skills, able to deal confidently with senior management, both academic and non-academic (essential)
• Excellent written communication skills (essential)

9. Dimensions

Duties are overseen by the Senior Management Accountant, via regular meetings. The Management Accountant - Corporate, however, operates with a degree of autonomy appropriate to the grade of the post.

10. Job Context and any other relevant information
