Trained DSE assessors – available locally in most work areas

Lawrence Dickson
24 Feb 2014

Welcome to Workstation Safety Plus. This 'office ergonomics resource centre' will help you to set up and use your computer workstation safely.

To the left you will see links to resources which can be used at any time to access the information you need. Should you have any difficulties while using Workstation Safety Plus, please click on the 'IT help' button above. If you wish to view our 'test-only' version of the course, please click on the link to the left.

To begin, navigate the links in your 'Status panel' (to the right) to run (1) E-learning and (2) Risk assessment modules. You will then be provided with your personal (3) User Action Report which will supply a list of tasks to help you work more comfortably.

To view the results of previous training or assessment data click on 'Results'.

User	Category risks	Score	Self RA
David Jax	Posture risk: 0.00 Static: 0.00 Status: 0.00	0.00	Self RA
John King	Posture risk: 0.00 Static: 0.00 Status: 0.00	0.00	Self RA
Neeraj Sharma	Posture risk: 0.00 Static: 0.00 Status: 0.00	7.00	Self RA
