# Equality Impact Assessment

## A. Policy/Practice (name or brief description):
The Visitor Registration System (VRS) records the details of those people who are considered Visitors to the University and details of the visits they make. A “Visitor” is someone who works for the University but is not registered in the HR System (People & Money)

The system has been designed to be 'self-service' and is targeted at College, School and Administrative Offices, with the expectation that each organisation will manage their own Visitors

## B. Reason for Equality Impact Assessment (Mark yes against the applicable reason):

- Proposed new policy/practice
- Proposed change to an existing policy/practice
- Undertaking a review of an existing policy/practice
- Other (please state):

## C. Person responsible for the policy area or practice:

Name: Irfan Khan

Job title: Service Manager (Enterprise Data)

School/service/unit: Applications Directorate, Information Services Group

## D. An Impact Assessment should be carried out if any if the following apply to the policy/practice, if it:

- affects primary or high level functions of the University **YES**
- is relevant to the promotion of equality (in terms of the Public Sector Equality Duty 'needs' as set out in the Policy and Guidance)? **YES**
- It is one which interested parties could reasonably expect the University to have carried out an EqIA? **YES**

## E. Equality Groups

To which equality groups is the policy/practice relevant and why? (add notes against the following applicable equality group/s)

- Age
- Disability
- race (including ethnicity and nationality)
- religion or belief
- sex
- sexual orientation
- gender reassignment
- pregnancy and maternity
All groups are potentially impacted by the VRS as it is a service which could be available to many users across the University. However, we feel that the protected characteristics of disability, religion, and pregnancy/maternity are most likely to be impacted. The Visitor registration system must be accessible to disabled users in line with the Web Content Accessibility Guidelines AA standards (https://www.w3.org/TR/WCAG20/) and compatible with assistive technology.

Training and guidance documentation is planned and will be available primarily on the University website (EdWeb), which adheres to the University Web Accessibility Policy based around the Web Content Accessibility Guidelines Version 2 AA standard as required by law. We will provide reasonable adjustments for disabled members of staff where required and additional formats etc. will be made available on request.

There is the potential for positive impact for people with a disability, religious commitments, pregnancy and maternity (and thus people who are women), caring responsibilities, or who are living abroad. The 24/7 capabilities of The Visitor registration system allow people who are not able to work during regular office hours to access the service at their convenience. The VRS system is available in English language.

The data available and used by VRS is limited by University regulations on data protection, and all University employees must undergo data protection training. Staff are only able to view reports and data that they have been given access to. This practice mitigates any privacy concerns that may arise. Any staff member found to be creating reports or using data for other means, that do not comport with the University’s data protection policy (e.g., reports that might identify individuals with specific characteristics, which may lead to discriminatory behaviours) would be subject to the University disciplinary procedures.

Add notes against the following applicable statements:

- On any available information about the needs of relevant equality groups:

  Users can submit complaints or comments about VRS via UniDesk, the University’s incident logging and tracking tool. We have not received any diversity and equality complaints for VRS. The Information Services Disability Information Officer has tested the interface in accordance with the Web Content Accessibility Guidelines AA standard including checking the systems for compatibility with assistive technology. Any areas for improvement have been noted and are dealt with accordingly.

- Any gaps in evidence/insufficient information to properly assess the policy, and how this be will be addressed:

  We feel we have enough evidence to proceed. We will monitor feedback we collect for any positive and negative effects related to any of the nine protected characteristics.

- If application of this policy/practice leads to discrimination (direct or indirect), harassment, victimisation, less favourable treatment for particular equality groups:

  We do not believe that this change will lead to any form of prohibited conduct. The data in VRS has strict access/privacy controls. The functions of creating visitors, granting them physical access to facilities and computing access to various systems, 

---

1 Note: only the duty to eliminate discrimination applies to marriage and civil partnership. There is no need to have regard to advancing equality or opportunity or fostering good relations in this respect.
approving and removing their access is done only by the assigned authorized
individuals which ensures additional security so, the information relating to any
protected characteristic is securely and legitimately held. Audit trails will ensure that
unauthorised access can be identified and reported, if any.

- If the policy/practice contributes to advancing equality of opportunity

VRS is available 24 hours a day, 7 days a week via the web, from anywhere around
the world. As such, the service will allow users with schedules that do not align with
“regular” work hours of 9am-5pm GMT (whether due to pregnancy/maternity/caring
responsibilities—and therefore sex—, disability, religious practice, or the fact that they
are in a different time zone) to enjoy ease of access.

Furthermore, only people who are authenticated and authorized can access certain
data. For example, creating staff visitors, library patron visitors, approving their
access, extending the visits, etc. all these activities are controlled granularly and is
only available to appropriately authorised individuals. Generally, the data that is
available to users is limited by University regulations on data protection, and all
University employees must undergo data protection training. This practice mitigates
any privacy concerns that may arise.

- If there is an opportunity in applying this policy/practice to foster good relations:
VRS should create no disadvantage and by showing that through this EqIA we have
considered impacts upon the protected characteristics and acting accordingly it is
hoped this demonstrates the commitment Information Services and the University has
to Equality and Diversity issues we will be able to foster good relations.

- If the policy/practice create any barriers for any other groups?
This policy should not create any barriers for any other groups, as it is simply a tool
for visitor registration and their management. Authorized staff have access to free IT
facilities 24 hours a day, which they could use to access VRS.

- How the communication of the policy/practice is made accessible to all groups, if
relevant?
Documentation and information will be available primarily on the University website
(EdWeb), which adheres to the University Web Accessibility Policy based around the
Web Content Accessibility Guidelines Version 2 AA standard as required by law. We
will provide reasonable adjustments for disabled members of staff where required and
additional formats etc. will be made available on request.

- How equality groups or communities are involved in the development, review and/or
monitoring of the policy or practice?
The Information Services Disability Information Officer has conducted an accessibility
assessment on VRS. We will continue to monitor feedback and complaints for any
positive or negative feedback. Users can submit any feedback via UniDesk, which the
Service Manager for IDM will respond to directly. We plan to do another accessibility
test if the system is changed significantly, or any system improvements evaluated with
the community (IDM user groups)

- Any potential or actual impact of applying the policy or practice, with regard to the
need to eliminate discrimination, advance equality and promote good relations:
Nothing further to what has been stated above.

2 This question does not apply to the protected characteristic of marriage or civil partnership
F. Equality Impact Assessment Outcome

Select one of the four options below to indicate how the development/review of the policy/practice will be progressed and state the rationale for the decision

**Option 1:** No change required – the assessment is that the policy/practice is/will be robust.

**Option 2:** Adjust the policy or practice – this involves taking steps to remove any barriers, to better advance equality and/or to foster good relations.

**Option 3:** Continue the policy or practice despite the potential for adverse impact, and which can be mitigated/or justified

**Option 4:** Stop the policy or practice as there are adverse effects cannot be prevented/mitigated/or justified.

G. Action and Monitoring

1. Specify the actions required for implementing findings of this EqIA and how the policy or practice will be monitored in relation to its equality impact (or note where this is specified above).

   **We will continue to review feedback/comments related to any of the 9 protected characteristics. We will also advise staff of the need to make reasonable adjustments where appropriate. Finally, we are committed to providing alternative formats upon request.**

2. When will the policy/practice next be reviewed?

   **If there is a significant change (i.e. a software upgrade) or we receive any positive or negative feedback related to any 9 of the protected characteristics.**

H. Publication of EqIA

Can this EqIA be published in full, now? **Yes/No**

If No – please specify when it may be published or indicate restrictions that apply:

I. Sign-off

EqIA undertaken by (name(s) and job title(s)):

Accepted by (name): Alex Carter

[This will normally be the person responsible for the policy/practice named above. If not, specify job-title/role.]
